

Our vision

We move you into the future – **sustainably** and **efficiently**.

Our mission

Using **the most modern technologies**, we offer our customers **standardized, innovative, and sustainable** solutions in the areas of Automation, Digitalization and Electronics.

Digitalization

- › Consulting, implementation, operation, and maintenance of digital solutions
- › Comprehensive IIoT approach, horizontally and vertically
- › Digital engineering and virtual commissioning
- › Analytical production and process optimization using digital twins
- › Transparency through data acquisition all the way to the cloud
- › Flexible production planning and control
- › Design, installation, and monitoring of secure production networks (KRITIS)

Automation

- › New machinery /greenfield
- › Retrofits/brownfield
- › Planning, software, commissioning, and maintenance – all done by HEITEC
- › Risk and security analyses
- › Programming and acceptance testing of secure controllers
- › Control and drive technology, system visualization in the HMI
- › Switchgear engineering, safety and control engineering
- › Qualification and validation
- › Digital engineering and virtual commissioning

Electronics

- › E²MS partner for developing complex modules and components
- › Production and testing of electronic products from prototypes to series
- › Professional packaging technology from standard components to the system platform
- › Approval, validation, and lifecycle management as a service
- › Many years of industry expertise in regulated markets, for example in medical, power plant, and transportation technology

Special machinery

- › Automation and handling systems
- › Assembly systems
- › Multifunctional processing centers
- › Automatic testing systems
- › Industrial x-ray technology and CT
- › Digital engineering and virtual commissioning
- › 24/7 after-sales service

The HEITEC Group stands for

- › Over 40 years of engineering experience
- › Over 1,200 highly qualified employees
- › Over 140 million Euros in sales in 2022
- › Locations near customers
- › Over 2,000 satisfied customers
